OUR SERVICES

END-TO-END PROJECT DELIVERY

- SHUTDOWN MAINTENANCE
- CONSTRUCTION
- FABRICATION
- CODED WELDING
- MECHANICAL INSTALLATION
- PLANT UPGRADES
- DECOMMISSIONING AND DEMOLITION
- BLASTING & INDUSTRIAL COATING

Our project managers are some of the best in the nation. We offer a comprehensive end-to-end project delivery service, with a key focus on **safety, quality and value**

MECHANICAL LABOUR HIRE

Our trades people are true leaders in their craft - We specialise in :

- PROJECT SUPERVISION
- MECHANICAL FITTERS
- BOILERMAKERS
- CODED WELDERS
- RIGGERS
- SKILLED TRADE ASSISTANTS

OUR PROJECTS

Project management for the provision of maintenance works - main crystallizer replacement at the Rocky Point Sugar Mill. Second scope including decommission and demolition of redundant mechanical plant including a holding tank. Installation of new tank including SMP upgrade.

- Mechanical decommission, and demolition of redundant plant including holding tank.
- Removal of main drive chain and pump
- Entire removal of roof structure, walkways, platforms and associated mechanical ancillary.
- Remove old crystallizer mixer and demolish.
- Assembly of new crystallizer including new bearings, chains and associated mechanical parts, then install.
- Reinstate all mechanical parts, ancillary equipment.
- Reinstate all structural steel and assemble roof.
- Thermal cutting, structural welding, blast and coating, mechanical assembly
- Multi-lift using 300T cranes, rope access

JANUARY 2024
\$842,000 PROJECT VALUE

HECK GROUP

Provide complete project management for the planned routine shutdown maintenance for stage 1 of the structural rectification works package at the Inverell processing plant, NSW.

- Mechanical decommission, and demolition of redundant plant.
- Remove corroded structural components and parts.
- Replace structural steel beams and associated mechanical parts and ancillary structures.
- Thermal cutting, structural welding, blast and coating, mechanical assembly

DECEMBER 2023
\$335,000 PROJECT VALUE

BINDAREE
FOOD GROUP

Provide end-to-end project management for the provision of mechanical maintenance at the Rocky Point Sugar Mill, Gold Coast. Provide complete project management for the construction upgrades within the associated Biomass Powerstation.

- Mechanical disassembly and structural demolition, repair and rectification of key operational plant.
- Fabrication of skids, walkways, ancillary equipment and construction of dewatering structure
- Stainless Steel Structural Mechanical Piping including Poly components
- Mechanical package inclusive of motor, gearbox and pump installation

MAY 2023
\$768,000 PROJECT VALUE

HECK GROUP

OUR PERFORMANCE

“Frontline Contracting were engaged by us (Heck Group) to conduct critical mechanical maintenance works at my site (Rocky Point Sugar Mill). FC were mobilised after one of our prime contractors fell into liquidation 2 weeks into the project. FC were able to deploy an entire project team quickly, to pick up where the previous contractor had left off.

Their work to date has been professional and efficient. They have maintained their quoted deadlines, worked independently under their own supervision and met all requests of my engineering team, whilst maintaining up to 5 simultaneous work-fronts on my site.

FC have maintained clear and regular communication between myself and their senior management such that I was always up to date with their progress and planning. They have been safety conscious in all work, and I intend to use them at my next shutdown.”

Kelly Heck
Area Manager - Heck Group

OUR TESTIMONIALS

“Working for Frontline Contracting has been a great pleasure and I feel privileged, because of the particular attention they give their workers. They are always reaching out, checking in on me and asking me how I am doing. This has made me feel cared for.”

FARAI MAWIRE
BOILERMAKER - FRONTLINE CONTRACTING

“Frontline Contracting's commitment to their contractors is outstanding. Their amazing employee management allowed them to provide us with a perfect candidate on short notice. They do everything they can to provide you with a candidate who will suit your business and project needs.”

TIEN BUI
MANAGING DIRECTOR - YAT

“The Frontline Contracting team was incredibly helpful in securing some labour for us at the last minute. While the field crew was onsite, the office team also went out of their way to assist me any way they could..”

MICHAEL HAY
SHUTDOWN MANAGER - ALLWEST ENGINEERING

“Excellent service from start to finish! The projects team in the office were very quick with supplying names and details of field candidates and very professional. Their team went above and beyond to assist in our needs. The Frontline Contracting field staff were also a pleasure to deal with and integrated with our own projects team seamlessly. Thank you for your ongoing support, we appreciate your help!”

MARINDA LOOTS
SHUTDOWN COORDINATOR - APMS ENGINEERING
